CONTENTS

Volume 35. No. 1—July

Clinical and diagnostic findings in 20 patients with toxoplasmosis and the Acquired Immune Deficiency Syndrome 1
Holliman, R. E.

Age-related microbiological changes in the salivary and plaque micro-flora of healthy adults 5
Percival, R. S., Challacombe, S. J. and Marsh, P. D.

Pre-opsonisation of *Escherichia coli* induces resistance to neutrophil killing in serum and urine: relationship to growth phase 12
Gargan, R. A., Brumfitt, W. and Hamilton-Miller, J. M. T.

Early events after intra-abdominal infection with *Bacteroides fragilis* and *Escherichia coli* 18
Verweij, W. R., Namavar, F., Schouten, W. F. and MacLaren, D. M.

Isolation and characterisation of an extracellular alkaline protease of *Asperigillus fumigatus* 23
Monod, M., Togni, G., Rahalison, L. and Frenk, E.

Killing of *Histoplasma capsulatum* by γ-interferon-activated human monocyte-derived macrophages: evidence for a superoxide anion-dependent mechanism 29
Brummer, E., Kurita, N., Yoshida, S., Nishimura, Kazukok and Miyaji, M.

SDS-PAGE and immunological analysis of different axenic *Blastocystis hominis* strains 35
Kukoschke, K. G. and Müller, H. E.

Purification and characterisation of toxin B from a strain of *Clostridium difficile* that does not produce toxin A 40
Torres, J. F.

Susceptibility to desferrioxamine: a new test for the identification of *Staphylococcus epidermidis* 45
Lindsay, J. A. and Riley, T. V.

Provisional identification of *Haemophilus influenzae* from sputum cultures within 1h by rapid enzyme tests 49
Dealler, S. F., Foweraker, Juliet, Lawson, Papeta and Fortune, Susan

Passive secretory immunity against *Salmonella typhimurium* demonstrated with foster mouse pups 53
Shope, S. R. and Schiemann, D. A.

Detection of nephritis strain-associated streptokinase by monoclonal antibodies 60
Ohkuni, H., Todome, Yuko, Yoshimura, K., Yamamoto, T., Suzuki, H., Yokomuro, K., Johnston, K. H. and Zabriskie, J. B.

Announcements 64

Volume 35. No. 2—August

Characterisation and functional aspects of monoclonal antibodies specific for surface proteins of coagulase-negative staphylococci 65
Timmerman, C. P., Besnier, J. M., De Graaf, L., Torensma, R., Verkley, A. J., Fleer, A. and Verhoef, J.

Transfer of resistance determinants from a multi-resistant *Staphylococcus aureus* isolate 72
Udo, E. E. and Grubb, W. B.

Usefulness of three probes in typing isolates of methicillin-resistant *Staphylococcus aureus* (MRSA) 80
Monzon-Moreno, C., Aubert, Sylvie, Morvan, Anne and El Solh, Névine

Antimicrobial susceptibility testing of mycoplasmas by ATP bioluminescence 89
Limb, D. I., Wheat, P. F., Hastings, J. G. M. and Spencer, R. C.

Adherence of *Serratia marcescens* in the pathogenesis of urinary tract infections in diabetic mice 93
Obana, Y., Shibata, K. and Nishino, T.

Detection of *Borrelia burgdorferi* in cerebrospinal fluid by the polymerase chain reaction 98
Kruger, W. H. and Pulz, M.

Direct Gram's stain of vaginal discharge as a means of diagnosing bacterial vaginosis 103
Rotimi, V. O., Yakuba, Z., Abudu, O. O. and Banjo, T. O.

An improved selective medium for the isolation of *Escherichia coli* O157 107
Chapman, P. A., Siddons, Christine, A., Zadik, P. M. and Jewes, Linda

Selected faecal bacteria and nutrients essential for antagonism of *Salmonella typhimurium* in anaerobic continuous flow cultures 111
Ushijima, T. and Seto, A.

A study of the antigenic composition of the fragilis group of *Bacteroides* 118
Elhag, K. M. and Alkarmi, T. O.

Obituary 123

Books Received 125

Announcements 127

Volume 35. No. 3—September

Differential binding of *Haemophilus influenzae* to human tissues by fimbriae 129
Sterk, L. M. T., Van Alphen, L., Geelen-Van Den Broek, L., Houthoff, H. J. and Dankert, J.

Rat model of chronic lung infections caused by non-typable *Haemophilus influenzae* 139
MacIver, I., Silverman, S. H., Brown, M. R. W. and O'Reilly, T.

Biochemical properties of group G streptococci isolated from cats and man 148
Reitmeyer, J. C., Guthrie, R. K. and Steele, J. H.

A comparison of probes for restriction fragment length polymorphism (RFLP) typing of *Legionella pneumophila* serogroup 1 strains 152
Saunders, N. A., Harrison, T. G., Haththotuwa, A. and Taylor, A. G.

Comparison of a DNA probe assay with culture for the detection of *Chlamydia trachomatis* 159
Lees, M. I., Newnan, Diane, M. and Garland, Suzanne, M.

Enterotoxigenic *Escherichia coli* associated with infant diarrhoea in Galicia, north-western Spain 162
Blanco, J., Gonzalez, E. A., Blanco, M., Garabal, J. I., Alonso, M. P., Fernandez, S., Villanueva, R., Aguilera, A., Garcia, M. A., Torres, J., Rey, A., Jansen, W. H. and Guinée, P. A. M.

Antigenic shifts in serotype determinants of *Campylobacter coli* are accompanied by changes in the chromosomal DNA restriction endonuclease digestion pattern 168
Mills, S. D., Kurjanczyk, L. A., Shames, B., Hennessy, J. N. and Penner, J. L.

PROCEEDINGS—Recent developments in pertussis research 174
Corbel, M. J. and Redhead, K.

Books Received 191

Volume 35. No. 4—October

Evaluation of the Rosco system for the identification of *Listeria* species 193
Kerr, K. G., Rotowa, N. A., Hawkey, P. M. and Lacey, R. W.

Adherence of *Helicobacter pylori* to human gastric epithelial cells *in vitro* 197
Hemalatha, S. G., Drumm, B. and Sherman, P.

The production and activity *in vivo* of *Proteus mirabilis* IgA protease in infections of the urinary tract 203
Senior, B. W., Loomes, L. M. and Kerr, M. A.

Susceptibility to β-lactam antibiotics of mutant strains of *Xanthomonas maltophilia* with high- and low-level constitutive expression of L1 and L2 β-lactamases 208
Akova, M., Bonfiglio, G. and Livermore, D. M.

Nucleotide sequence of dihydrofolate reductase type VI 214
Wylie, B. A. and Koornhof, H. J.

An Indian hospital study of viral causes of acute respiratory infection in children 219
Jain, A., Pande, A., Misra, P. K., Mathur, A. and Chaturvedi, U. C.

Comparison of immunofluorescence and culture for the detection of *Actinomyces israelii* in wearers of intra-uterine contraceptive devices 224
Leslie, D. E. and Garland, Suzanne, M.

Flow cytometric analysis of within-strain variation in polysaccharide expression by *Bacteroides fragilis* by use of murine monoclonal antibodies 229
Lutton, Deborah, A., Patrick, Sheila, Crockard, A. D., Stewart, Linda, D., Larkin, M. J., Dermott, Evelyn and McNeill, T. A.

The assessment of faecal flora in patients with inflammatory bowel disease by a simplified bacteriological technique 238
Giaffer, M. H., Holdsworth, C. D. and Duerden, B. I.

Serological diagnosis with the Chlamydia Spot-IF test 244
Mannion, P. T., Mallinson, H. and Treharne, J. D.

An assessment of the Kemble Star 700 sample processor for the automation of complement fixation and ELISA tests in a microbiology laboratory 249
Amphlett, M., Smith, D. J. and Warren, R. E.

Announcements 255

Books Received 256

Volume 35. No. 5—November

Expression *in vivo* of additional plasmid-mediated proteins during intestinal infection with *Yersinia enterocolitica* serotype O8 257
Naumann, M., Hanski, C. and Riecken, E.O.

Plasmid associated virulence properties of environmental isolates of *Aeromonas hydrophila* 264
Borrego, J. J., Moriñigo, M. A., Martinez-Manzanares, E., Bosca, M., Castro, Dolores, Barja, J. L. and Toranzo, Alicia E.

Biochemical phenotypes of enteropathogenic *Escherichia coli* common to Iran and Sweden 270
Katouli, M., Kühn, I. and Möllby, R.

Identification of enteropathogenic *Escherichia coli* isolated in Britain as enteroaggregative or as members of a subclass of attaching-and-effacing *E. coli* not hybridising with the EPEC adherence-factor probe 278
Scotland, S. M., Smith, H. R., Said, B., Willshaw, G. A., Cheasty, T. and Rowe, B.

The 16S ribosomal RNA of *Mycobacterium leprae* contains a unique sequence which can be used for identification by the polymerase chain reaction 284
Cox, R. A., Kempsell, K., Fairclough, L. and Colston, M. J.

Comparison of ultracentrifugation and polyethylene glycol precipitation for concentration of hepatitis B virus (HBV) DNA for molecular hybridisation tests and the relationship of HBV-DNA to HBe antigen and anti-HBe status 291
Sanyal, D., Kudesia, G. and Corbitt, G.

Bacteroides ureolyticus* (NTU) medium for the selective recovery of *Bacteroides gracilis 294
Wade, W. G., Bishop, P. A. and Slayne, M. A.

Restriction endonuclease digest patterns of chromosomal DNA from group B β-haemolytic streptococci 297
Nagano, Yukiko, Nagano, N., Takahashi, S., Murono, K., Fujita, K., Taguchi, F. and Okuwaki, Y.

Typing of *Streptococcus pyogenes* by pyrolysis mass spectrometry 304
Magee, J. T., Hindmarch, J. M. and Nicol, C. D.

Announcements 307

Books Received 309

Volume 35. No. 6—December

Reaction of *Candida albicans* cells of different morphology index with monoclonal antibodies specific for the hyphal form 321
Merson-Davies, L. A., Hopwood, V., Robert, R., Marot-Leblond, A., Senet, J.-M. and Odds, F. C.

Enhanced siderophore production and mouse kidney pathogenicity in *Escherichia coli* grown in urine 325
Sharma, S., Harjai, K. and Mittal, R.

Contact-haemolysin production by entero-invasive *Escherichia coli* and shigellae 330
Haider, Khaleda, Albert, M. J., Hossain, A. and Nahar, S.

Surface layers of *Eubacterium yurii* subsp. *yurii* and their possible role in test-tube brush formation and iron acquisition 338
Krywolap, G. N., Fischlschweiger, W., Dabirsiaghi, Carolyn L. and Margaret, Barbara S.

Histopathological study of porcine gastric mucosa with and without a spiral bacterium ("*Gastrospirillum suis*") 345
Mendes, E. N., Queiroz, Dulciene, M. M., Rocha, G. A., Nogueira, Ana M. M. F., Carvalho, A. C. T., Lage, A. P. and Barbosa, A. J. A.

Invasion of HEp-2 cells by strains of *Salmonella typhimurium* of different virulence in relation to gastroenteritis 349
Douce, Gillian R., Amin, I. I. and Stephen, J.

4-Quinolone interactions with gyrase subunit B inhibitors 358
Lewin, C. S., Howard, B. M. A. and Smith, J. T.

Histidine decarboxylases from bacteria that colonise the human respiratory tract 363
Cundell, D. R., Devalia, J. L., Wilks, M., Tabaqchali, S. and Davies, R. J.

A scheme for the identification of viridans streptococci 367
Beighton, D., Hardie, J. M. and Whiley, R. A.
